

SOUTHERN COMPANY CAREER OPPORTUNITY

AIRCRAFT MECHANIC - GULFPORT, MISSISSIPPI

This position will perform maintenance of System Air aircraft with a focus on safety, efficiency, maximum availability and outstanding customer service. **Position will support both the Gulfport and Pensacola locations.** Travel will be required.

Job Duties and Responsibilities: Support, encourage and participate in all company safety initiatives. Perform maintenance on all aircraft operated by System Aircraft. Comply with the Federal Aviation Regulations and other regulatory requirements (OSHA, EPA, etc). Demonstrate "Southern Style" with emphasis on trust, diversity/inclusion, customer service and teamwork. Ensure completion of the required maintenance records (i.e. Work Orders, Log Entries, etc.). Partner with the SCM Support Specialist to ensure that proper documentation and procedures are adhered to for inventory management, warranty, and all special vendor programs. Resolve vendor issues (i.e. quality, service) appropriately and escalate to Lead Mechanic if needed. Partner with the Lead Mechanic and the Chief of Maintenance in developing the internal plan of scheduled and unscheduled aircraft maintenance.

Benefit Information

- **Starting Salary Range \$45,000 — \$80,000 annually**
- **10% bonus potential**
- **401k and Pension**
- **Healthcare Benefits**

Requirements

- Aircraft training specific to the aircraft operated by System Aircraft (Learjet Model 45) is desirable
